
Summary of our achievements

2011-2017

CSV

GRÉIWEMAACHER

Dear fellow citizens,

"CSV Maacher" focuses on people. The municipalities are faced with major challenges: transparent information to the citizens, intergenerational co-operation, safety and emergency assistance, integration, social affairs, promotion of culture, tourism, sports and honorary offices and support of the local economy. We have accepted and implemented these challenges between 2011 and 2017.

In 2011, we proposed the following priorities:

- The financing of underground parking on the plot of the former hospital and retirement home.
- The new building of the sports and cultural center.
- The redesign of the market square.
- The extension works of the "Maison Relais".

Due to our sustainable financial policy, these projects have been implemented or are being currently executed. Moreover, we have planned and have executed numerous other projects rendering our city more attractive, e.g.: the renovation of the pedestrian zone, the creation of new parking spaces, the renewal of underground infrastructure, etc.

Together with my dedicated team, I look forward to continuing the development of our city, our "Muselmetropol". The quality of life of our citizens has top priority for "CSV Maacher". You shall feel comfortable in our city and enjoy the "Miseler way of life".

Our project is **„KLOER, NO & GERECHT“** and we are **"100 % ENGAGÉIERT FIR MAACHER! "**
